# Step 1:

# About Walk at Home

**Walk at Home  
is miles ahead  
of other fitness  
routines.**

**amazon.com**

**Walmart** Save money. Live better.

**COSTCO** WHOLESALE

*"If you think a non-stressful exercise like walking could never play a major role in keeping you fit and healthy, think again."*

*- Leslie Sansone*

Leslie Sansone's  
**Walk**  
at home

[www.walkathome.com](http://www.walkathome.com)

- **Walk at Home is the nation's #1 walking program.**

Founded 25 years ago by fitness expert Leslie Sansone, the Walk at Home brand leads the nation in walking for health and weight loss.

- **Walking fits all.**

Walk at Home is something everyone can do – it's safe at any age, at any fitness level.

- **Easy to get started. Easy to keep going.**

The only equipment you need is a pair of walking shoes, a Leslie Sansone Walk at Home DVD, and a TV or computer. Forget about expensive gym memberships or exercise equipment.

- **The ultimate no-excuse fitness routine.**

You don't need perfect weather, a perfect body, or even a walk buddy. All you need is the motivation to get moving. Walk whenever you like within the privacy of your own home.

- **The Walk at Home brand is easy to get your hands—and feet—on.**

DVDs are for sale at [walkathome.com](http://walkathome.com); online retailers like Amazon; major retailers like Wal-Mart, Target, Costco and Best Buy; and on QVC.

- **Walk at Home has 70 million walk fans. And counting. . .**

Join us, and firm up, stand taller, improve your range of motion, and burn some serious calories.

**iVillage**

"Staying fit shouldn't be intimidating or expensive."

- Leslie Sansone

Leslie Sansone's  
**Walk at home**  
[www.walkathome.com](http://www.walkathome.com)

Leslie Sansone is a nationally recognized fitness expert, and creator of the Walk at Home program. Her philosophy is simple. She believes that our bodies were made to move. And that we can walk our way to health and wellness.

For 25 years, she's taught people of all ages how to get fit, stay fit and feel better about life. With 70 Million fans and \$225 Million in sales, (and growing) she is committed to helping people choose fitness walking as their sport for life.

Leslie's energy is contagious. Her enthusiasm for walking, and life, is unmatched. She's a walk guru on a mission. To promote healthy lifestyles. To ward off illness associate with obesity and sedentary lifestyles. And to improve public health – one stride at a time.

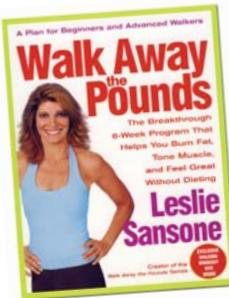

Leslie's life's work also includes being a mother of three. So when she's not leading walk events, producing DVDs, making TV appearances, or supporting national health programs, she's busy keeping up with her growing family.

# Step 4:

# Shopping For Walk at Home

## Walk at Home products fly off the shelves.

"Don't take that traditional stroll ... Put all your muscles in motion with Walk at Home."

- Leslie Sansone

Leslie Sansone's  
**Walk**  
at home

[www.walkathome.com](http://www.walkathome.com)

Walk At Home is a system of walking-based moves that allow you to choose the number of miles you'd like to walk – 1, 2, 3, 4 or 5 miles. Programs are available at gentle paces for those who are new to exercise or advanced paces for the more physically fit. Some workouts even call for walking to speeds that equal a 10- minute mile.

This unique form of exercise bears no resemblance to a typical stroll around the block. This is multi-muscle walking that puts all your muscles in motion. The arms work the upper body, the core muscles fire to slim the core, and the legs move in new directions for maximum muscle activation.

### Top-Selling DVD titles:

- Walk-Eat-Lose 4 Mile Super Walk
- 5 Mile Fat Burning Walk
- Walk Slim Fast & Firm 4 Really Big Miles
- 5 Day Slim Down
- Walk Away the Waistline
- 3 Mile Weight Loss Walk

### A worldwide fitness brand with worldwide distribution

- Online store: [walkathome.com](http://walkathome.com) since 1997
- Traditional Retailers: Wal-Mart, Target, Best Buy, Costco since 1985
- Online Retailers: Amazon, Collage Video
- QVC Home shopping Channel/U.S. and UK since 1987
- Direct to Customer/Walk at Home Office, New Castle, Pennsylvania
- TV Ads and Infomercials since 1999

### The customer reviews speak for themselves

99% of QVC shoppers would recommend Walk-Eat-Lose 7 DVD Program with Boost Cables to a friend. Some 5 star reviews include:

#### Another Good One from Leslie

"I own some of Leslie's other walking DVDs and have enjoyed doing them, but this set with the cables is great! You get aerobic and strength training at the same time. She is a great motivator, and I think the DVDs with meal suggestions are helpful in teaching portion control. I realized that I eat waaaay too much in a day! Thanks for offering this, QVC."

#### Motivation Needed

"I was in an exercise slump. Treadmill wasn't doing it anymore; don't like walking outside; other tapes/dvds weren't motivating me. Then I tried this program—I AM HOOKED. I now walk to Leslie's DVDs 6 days a week. I love the boost cables. It is amazing in one month how my arms are losing inches. I am waking up muscles in my arms that have been asleep for years. I am a big fan—actually bought 2 different DVDs by Leslie at another retailer. Give it a try—I think you will be hooked too!!!"

Over the past 25 years, the Walk at Home brand has amassed a loyal and passionate following. Each of our customers has a story. And each one reminds us why we do what we do.

For more inspiring testimonials, please visit [walkathome.com/testimonials](http://walkathome.com/testimonials).

### **Walk at Home helped give me back my health!**

I have been walking with Leslie since 2004. I started this quest after seeing photos from my daughter's college graduation. I realized that going from 130 lbs. to 164 lbs. was a 'big' deal. I had to do something! I have a strong will to feel good and be in shape, so exercise has never been too much of a challenge. I used the tapes faithfully for that first year, and dropped back down to 125 lbs. Never felt better in my entire life. Then the phone call, that none of us wants to get, arrived on my birthday in 2007. I had breast cancer. After my bilateral mastectomy surgery I suffered from blood clots and landed in ICU for several long days. For someone who thought she was really healthy, this was a rude awakening. When I got home, I was determined to get back in shape as quickly as possible. Even though I could not use my arms right away, I started moving again. I used Walk the Walk and made myself get off the sofa and do 2 minutes of walking that first day. I kept increasing it each day and within the month I was back to thirty minutes. Using my arms was a challenge, and I had to take it easy until the doctor gave permission, but the workouts have helped me to continue to improve and I now do 2-3 miles a day. I really have to give credit to this low impact aerobic exercise for giving me back my health.

Vicki Lewis

### **I can now say I am 100% happy with myself.**

My church held an after house adult prayer group. Some of the ladies exercised after the prayer group. That is when you came into my life. I loved your workout. Your DVDs let me ease into an exercise regimen again. It gave me the flexibility to do things on my own terms and at my own pace. Having a newborn I had to be able to exercise at home while the baby slept. I have been working out in my basement ever since. I bought the walk slim at home system. Slowly graduated from 1 mile workout to the 5 mile advanced and the 4 fast mile DVDs. I walk with you faithfully 6 days a week. I can now say I am 100% happy with myself. I look great and I feel great. I can finally have that cookie, because I am burning so many calories with your workouts that I don't have to starve anymore.

Allison Price

### **I am eternally grateful to this walking program.**

I'm sending this e-mail to you (Ms. Sansone) in response to a comment you made on one of your recent videos, WALK SLIM, regarding trying to convince more males to walk off the pounds. Well, I want to assure you that this is one man who will be eternally grateful to have discovered the benefits of your walking program. My wife, Carol, was the person who recommended your videos when I decided to better manage my weight and my diabetes after too many years of neglect and over-indulgence. I've worked as a professional comic book artist for almost 34 years (I'm 53 years old) and spend the greater part of my waking hours sitting in one place. Because of my constant deadlines, getting out to a gym has always been impractical, so when Carol told me about your home workouts, I figured I had nothing to lose by trying.

I was wrong. I had a lot to lose—specifically pounds and inches. I began in February (of 2008) with one of your 1-mile walks and am now doing between 4 and 5 miles a day, six days a week, adding some weights to help further my muscle toning. On a recent doctor's examination I was weighed in at an astonishing 197 pounds, making my total weight loss 55 lbs in only 8 months [as of Sept. 2008]. I have gone down to a 34-inch waist, my suit size has gone down from a 34L to a 44L and my collar has shrunk down from 18.5 inches to 17. I am wearing suits I have not worn in decades and now weigh the least I have weighed since I was 20 years old.

At a convention signing appearance, several friends, fans and associates noted a marked difference in the way I looked. When asked how I was doing it, I proudly mentioned your name and have since recommended your program to several friends, female and male. Add to that improvements to my blood pressure, sugar levels, cholesterol and overall stamina and all I can say once again is thank you all for providing me with a program that really works. I still walk 5-6 days a week and moderate my portions carefully so I intend to stay fit and healthy for a lot of years to come. On behalf of Carol and me, thank you.

George Perez

# Step 7:

# A Community of WALK Leaders

**Teach the world  
a whole new  
way to walk.  
Indoors.**

*"You're never alone when you join us for a walk."*
