If you’ve been walking with us the last two months, then you’re just 30 days away from your best body ever. And for the newcomers, no worries, you’re not too late to join our Family Circle/American Heart Association Start! Walking Challenge. You’ll boost your energy, strength and confidence while trimming your waistline. Interested? Begin by visiting familycircle.com/walk2010. This month you could drop as many as 10 pounds (that’s one or two dress sizes) and lower your BMI. Our energizing walks and delicious healthy eating guide make it easy—and fun. Walk on!
LOWER YOUR BMI by Leslie Sansone

The first two months of our plan focused on reducing blood pressure and decreasing your cholesterol levels. (Missed them? Just go to familycircle.com/walk2010.) Next up is ridding yourself of those remaining pounds (and some body fat) to bring down your body mass index (BMI). Walking is one of the best ways to accomplish that. And the really good news is that fitness walking also increases the amount of muscle in your body, so you’ll be burning more calories throughout the day—even while sitting still.

BOOT-CAMP-STYLE PLAN A sure way to lower your BMI is to add short intense bursts of activity into your walks. You can do this by tackling some inclines. Powering up stairs or hills engages the glutes (your backside) and quads/hamstrings (your thighs), and strengthening these major muscles results in big calorie burn. So find yourself a good set of stairs, a hilly route or even just a curb and get moving.

**WEEK 1**

**Monday, Wednesday, Friday**

Walk 3 miles in 45 minutes. Add a Climbing Session.

**Tuesday, Thursday**

Walk for 10 minutes before each meal. (Your goal is a total of at least 30 minutes of walking.)

**WEEK 2**

**Monday, Wednesday, Friday**

Walk 2 miles and do a Climbing Session.

**Tuesday, Thursday**

Walk 4 miles. Clock yourself and try to finish in 60 minutes or less!

**WEEK 3**

**Monday, Wednesday, Friday**

Walk 3 miles. If your route does not have hills, drive to one that does. Even a small incline demands the legs do more work.

**Tuesday, Thursday**

Head out in the A.M. and P.M. Walk 15 minutes in the morning and 15 minutes before dinner. Cover 1 mile each time.

**WEEK 4**

**Monday, Wednesday, Friday**

Walk 4 miles and add a Climbing Session.

**Tuesday, Thursday**

Walk 2 miles in under 30 minutes.

**WEEKEND WALKS**

When your workout plans get sidetracked, just reschedule: Do your Tuesday walk on Saturday and your Friday walk on Sunday. As long as you fit in 5 workouts in a 7-day period, you’ll be well on your way to a healthy BMI. And on those weeks when you stick to the Monday through Friday schedule, push yourself a little more and go for a really long walk or hike (1 to 2 hours) on Saturday or Sunday. Then give yourself a well-deserved pat on your ever-shrinking backside.
THREE EASY WAYS TO LOSE WEIGHT  by Sally Kuzemchak, R.D.

Our plan incorporates proven strategies to help you drop pounds. 1. Fill up on big portions of low-calorie foods. 2. Eat frequently to ward off low-blood-sugar crashes. 3. Keep a cap on calories—key to successful weight loss. This plan provides around 1,500 per day. Choose a breakfast, lunch, dinner and some sweet treats (stick with one if you want to drop pounds, two if you’re maintaining).

1. Yogurt Parfait
Layer 6-ounce cup 2% honey-flavored Greek-style yogurt, 1 cup fresh or frozen raspberries and ½ cup Kashi GoLean Crunch cereal in a glass (you can prepare this the night before and cover with plastic wrap). 352 calories; 4.5 g fat; 9 g fiber

2. More Than Just Cereal
1 cup fiber-rich cereal (such as Multi-Bran Chex) with ½ cup fat-free milk and ½ medium banana, sliced; 1 hard-boiled egg. 370 calories; 7 g fat; 9 g fiber

3. Bagelicious
One 3-ounce whole-grain bagel spread with 1 Laughing Cow Light cheese wedge; ¼ cup raisins. 343 calories; 5 g fat; 8 g fiber

4. Feel-Full Smoothie
Combine 1 packet No-Sugar Vanilla Carnation Instant Breakfast, 1 cup fat-free milk, 1 tablespoon almond butter and ½ cup fresh or frozen blueberries in a blender until smooth. 338 calories; 14 g fat; 8 g fiber

5. Maple-Walnut Oatmeal
½ cup steel-cut oats made with 1 cup fat-free milk. Mix in 1 tablespoon each maple syrup and chopped walnuts. 330 calories; 7 g fat; 4 g fiber

6. Peanut Butter Waffliewich
Spread a whole-grain waffle with 1 tablespoon natural peanut butter, layer on ½ cup sliced strawberries and top with a second waffle. 350 calories; 14 g fat; 6 g fiber

On the Go
7. Dunkin’ Donuts Egg White Turkey Sausage Flatbread; Lite Latte
360 calories; 6 g fat; 3 g fiber

The best breakfast combines a fiber-rich carb like fruit or whole grains with a protein source such as eggs, nuts or dairy.

A DAILY DOSE OF GOOD HEALTH
By Allison Baker

When her doctor told her she was obese, Lanie Dixon, 36, was shocked. She knew she needed to lose weight but didn’t realize her body mass index (BMI)—a measurement of weight in relation to height—was so high. An ideal number is between 18.5 and 24.9; 25 to 30 is overweight; above 30 is obese. Lanie’s was 37—so she was scared and determined to make changes. Supported by her husband and kids, Lanie lost 30 pounds and reduced her BMI by 5 points in a year. Her updated goals: Drop 35 more pounds and run a half-marathon (she’s already done four 5Ks). With her new diet and exercise routine, she’s on the right track.

LANIE’S DAILY SLIM-DOWN SCHEDULE
6:30 A.M. My first workout of the day is right in my bedroom. Nike.com offers a series of 1- to 3-minute yoga, cardio and strength training videos. I do a total of about 35 minutes.
8:30 A.M. I prepare an easy to-go breakfast. My favorite is two egg whites, with one slice of turkey bacon and a half of a slice of Swiss cheese, on an English muffin.
11:30 A.M. At lunchtime I usually eat a veggie-packed salad with field greens, spinach, romaine lettuce, tomatoes, cucumbers and 1 tablespoon balsamic vinegar.
1:00 P.M. My e-mail calendar reminds me it’s time to get moving (I set it to send me an alert every afternoon). I grab a co-worker for a 30-minute, 2-mile walk circling the office building.
4:00 P.M. After work I head to an exercise session for parents held by my daughter’s school. It includes Pilates, kickboxing, aerobics and line dancing.
5:00 P.M. As soon as I get home I snack on a cup of Special K cereal with some skim milk. It keeps me from munching while I cook or overindulging at dinner.
6:30 P.M. The whole family sits down for a healthy meal, usually a lean protein with two veggies. I make a starch for my kids, but I typically skip it. A favorite of mine is baked tilapia, roasted asparagus and black-eyed peas.
9:00 P.M. The kids have learned to expect—and even like—fresh fruit or Jell-O for dessert. I sweeten it up just a bit with a little whipped cream on top.

THE DOCTOR WEIGHS IN
About half of Americans are considered overweight or obese based on their BMI, says Clyde Yancy, M.D., president of the American Heart Association. BMI is an important indicator of heart health because extra weight can raise blood pressure and cholesterol. Dr. Yancy’s tips for lowering yours:

✔ Know the numbers You can calculate BMI by dividing your weight in kilograms by your height in meters squared. Or simply go to the BMI calculator at americanheart.org/bmi.
✔ Change your diet Eat 3 to 4 servings of both fruits and veggies a day. Aim for 2 to 3 servings of fish per week and 2 to 3 servings of whole grains a day. Reduce daily fat intake to fewer than 70 grams. Limit sugar-sweetened drinks to 100 calories a day. Use our menus (pages 136-142) as a guide.
✔ Walk it off Exercise helps you slim down and is the best way to maintain a healthy BMI. Get started with our plan on page 134—find a route in your neighborhood and grab a pair of sneakers. Even if you’re crunched for time, sneak in a workout in the morning or on your lunch break like Lanie does.

A PICTURE’S WORTH A THOUSAND WORDS “Around the same time my doctor warned me about my BMI, I volunteered to be a fundraising captain at my engineering firm for an American Heart Association walk,” says Lanie. “As a reward for raising $1,000, I was invited to attend a luncheon with my company’s CEO. When I saw pictures from the event, I thought, ‘Whoa, I look fat!’ I vowed to raise just as much money the following year but look slimmer in my photo. I succeeded in both goals—I donated another $1,000 and was 30 pounds lighter.”
